

The Wanzl secondary trolley

Customer service with 100% success

The Wanzl secondary trolley

Customer service with 100% success

- > *Address specific customer needs*
- > *Increase customer loyalty and satisfaction*
- > *Secure a competitive advantage*

The results of our customer surveys have confirmed that the small secondary trolley is the customers' favourite. Our recommendation – equip one-third of your fleet with small Wanzl shopping trolleys.

■ **With a Wanzl secondary trolley** you can address the needs of specific customer target groups that making fewer purchases per trip, but shop more often. This makes shopping easier and more convenient and means you can stand out amongst stiff competition with a clear service advantage. This is customer service with a 100% success rate.

Additional service for the 50+ generation and singles

The 50+ generation frequently heads to the supermarket. They take time with their shopping, and are extremely loyal and consumable-driven customers. They place great emphasis on service and appreciate lightweight, manoeuvrable shopping trolleys with shallow baskets.

Singles are always on the go. They spend less time on shopping but tend to go more frequently. The growing preference for fresh produce supports this trend. Small shopping trolleys do an excellent job of accommodating their shopping habits. Our popular secondary trolley models are the perfect addition to your fleet.

Salsa® 95

■ **The Salsa plastic shopping trolley** with the pioneering design. The innovative design concept has momentum. The structure of the basket changes and repeats itself, creating a chaotic mesh that looks as if it has grown organically. It is lightweight, quiet and discreet when driving and stacking, meaning it doesn't annoy local residents, customers or supermarket staff.

THE SALSA 95

Design the perfect trolley to maximise your supermarket's brand recognition, always with a childseat/goods shelf and with a practical bottom tray on request.

Light shopping trolley

■ **The Light shopping trolley is the secondary trolley produced in a wire version.** Easy handling perfectly complements your standard fleet. The shallow 70-litre shopping basket is easy to load, making it the first choice for many customers.

WITH THE LIGHT SHOPPING TROLLEY, manoeuvre at the height of fatigue. For small purchases, this model is the superior alternative to shopping baskets or reused bags.

Tango® 90

■ **The compact, handy Tango 90 is always there** when you need it: for small purchases or last-minute shopping trips. With its convenient equipment, it is the equal of its larger counterparts.

THE TANGO 90 is the customers' favourite – manoeuvrable, lightweight and runs smoothly.

Tango® City

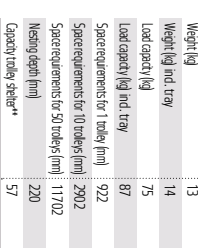

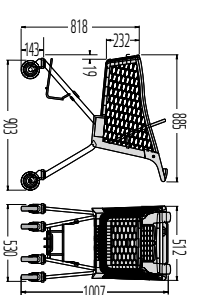

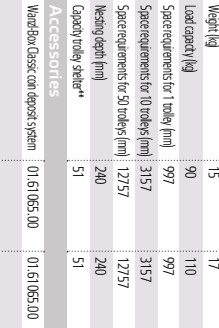

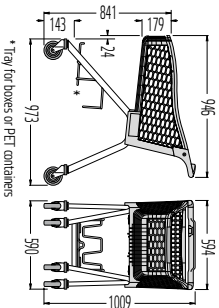

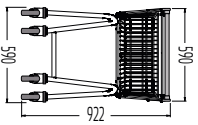

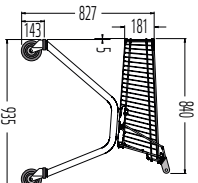

■ **The innovative and trendy Tango City shopping trolley** is ideally suited to small and medium-sized stores and as a secondary trolley. With its easy handling for quick shopping trips and convenient, shallow basket, Tango City is sure to please.

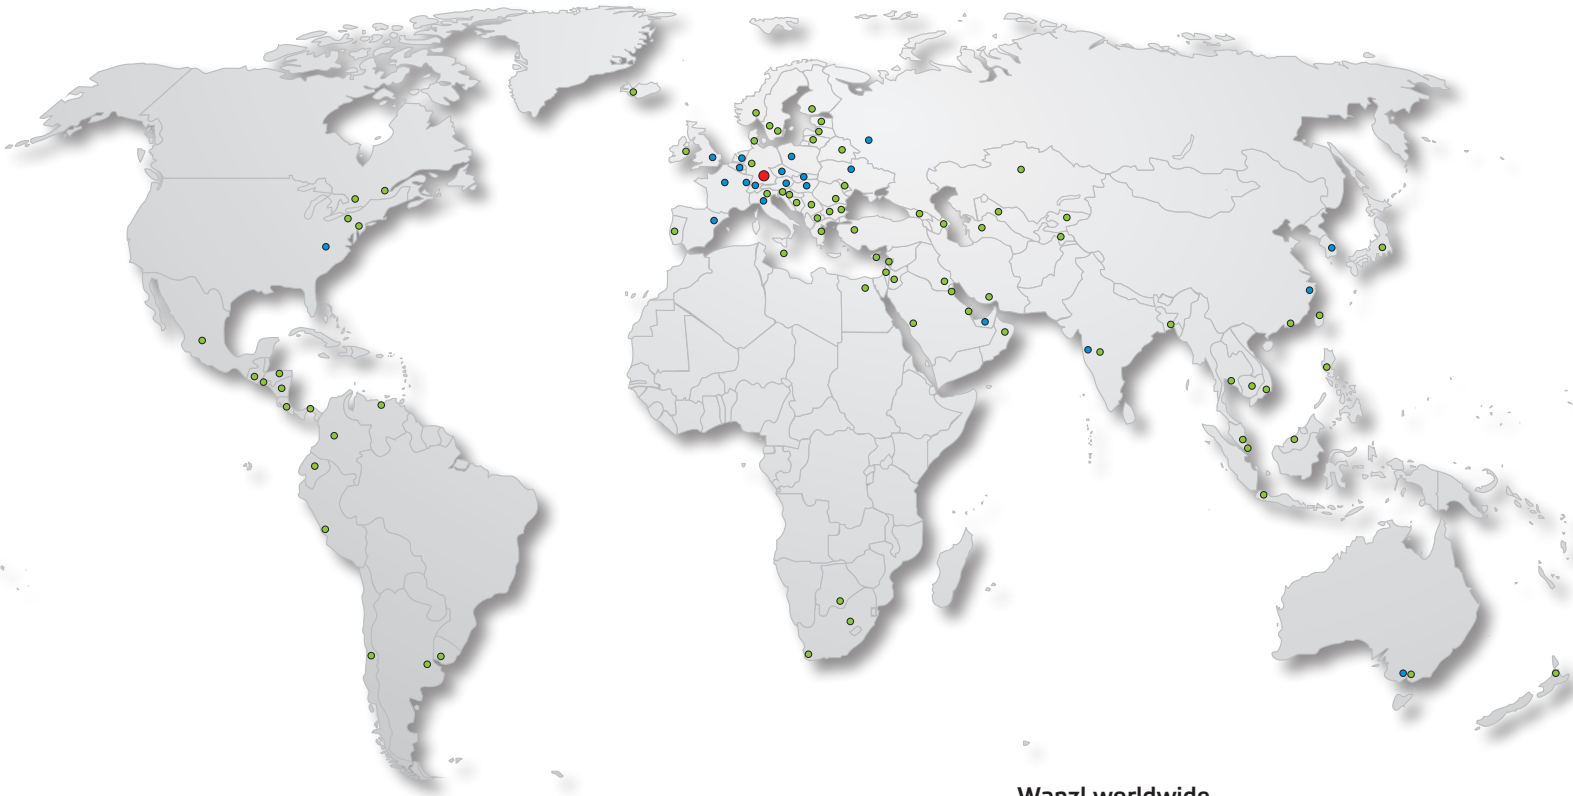

THE TANGO CITY IMPRESSES with its slim design, even in stores with limited space.
