# Wanzl displays and sales equipment

## Continuing a long success story

BLUMENKÖNIG 1970

EUROSTAR 1994

BAKEOFF 2.0 2015

■ **At Wanzl, we know** what people will want tomorrow. As a global market leader for shopping trolleys, we also have the perfect solutions when it comes to displays and sales equipment. We do not think it enough to merely reflect current trends with our innovative retail products: we are always one step ahead of the times with our design and engineering.

■ **Today, Wanzl employs over 4,900 people** at thirteen production sites worldwide, working on new business areas and products, on exceptional product designs with a consistently high quality and a vast production range. The aim: perfectly satisfied customers.

***The world is changing.  
Take advantage of it!***

■ **Wanzl products are unique.** Wanzl's specialist expertise, consistency, reliability and innovative solutions and technologies ensure effective work processes along with the competitiveness and business success of its partners.

# Quality\_MADE BY WANZL

Product quality as a result of process quality

EXPERTISE IN WIRE & TUBING

IN-HOUSE CAD DEVELOPMENT

## Production

■ **Wanzl sets the standards for production:** in all production processes, Wanzl's quality policy results in products with the best materials, first-class workmanship and well-finished surfaces. This ensures long, low-maintenance use and investment security.

## Quality

■ **Only the best** quality manufacturers are chosen to supply the 80,000 tonnes of steel processed a year. Only these materials comply with the requirements for surface quality, strength, weldability and bending properties.

## Innovation

■ **Wanzl sets the standards for innovation:** from practical experience – for practical use. Using state-of-the-art production and design technology, we create innovative, future-oriented products - consistently setting new standards for handling and efficiency. This allows us to streamline your processes, guaranteeing you have the best possible facilities for your store in future too.

# Service at any time and in any location

Professional installation, maintenance, repair,  
and genuine Wanzl spare parts

**EVEN ONCE INSTALLATION HAS BEEN SUCCESSFULLY COMPLETED**, Wanzl is still there for you. With our specialist, practical advice, your staff will always be equipped to use our products efficiently and correctly.

**SERVICE FROM WANZL** means faults are rectified quickly and smoothly.

■ **Installation, commissioning and training.** Wanzl challenges its products in demanding endurance tests, because technical quality must be correct down to the finest detail. This is also true for installation. That's why installation is carried out only by authorised, qualified professional personnel from Wanzl. This ensures compliance with all legal and official regulations. Wanzl also provides support during commissioning and gives your employees professional and practical instruction in how to use the high-quality products efficiently and correctly, so that you benefit from lasting success.

■ **Maintenance and repair.** To maintain the Wanzl quality we recommend regular maintenance of all components. Ongoing maintenance ensures that the value of your assets is preserved. Ask for your own personalised maintenance plan.

■ **Spare parts.** An experienced team of specialists offers you short response times, a professional after-sales service and simple handling of all service requirements – across the board. Tell us what we can do for you and we will be happy to help.

.....  
■ **Wanzl Hotline** for virtually every situation at practically any hour. If attempts to resolve a problem over the telephone do not lead to the required outcome, a member of our service team will arrange a visit to your site with you.

# 01.01 PS 12/8 bargain table

*Powerful boost at point of sale*

- › *Assembled in a flash*
- › *Flexible to use with height-adjustable bottom grates*
- › *Stationary or mobile*

## Standard design

Table legs and frame made of square steel tubing. Bottom grate reinforced with flat plates and can be attached at different heights. Folding mechanism for compact storage of tables.

**PS 12/8 bargain table:** 1 bottom grate

**PS 12/8 Duo bargain table:** 1 divider, 2 bottom grates

**Surface finish:** High gloss chrome-plated

**Mobile version:** 4 swivel castors, castor diameter 75 mm with brakes, internal, attached on bottom frame.

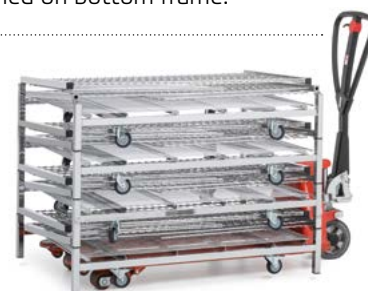

## Safe stacking

The locking pins in the folding mechanism prevent slipping during transport with a lowlift truck.

## Practical

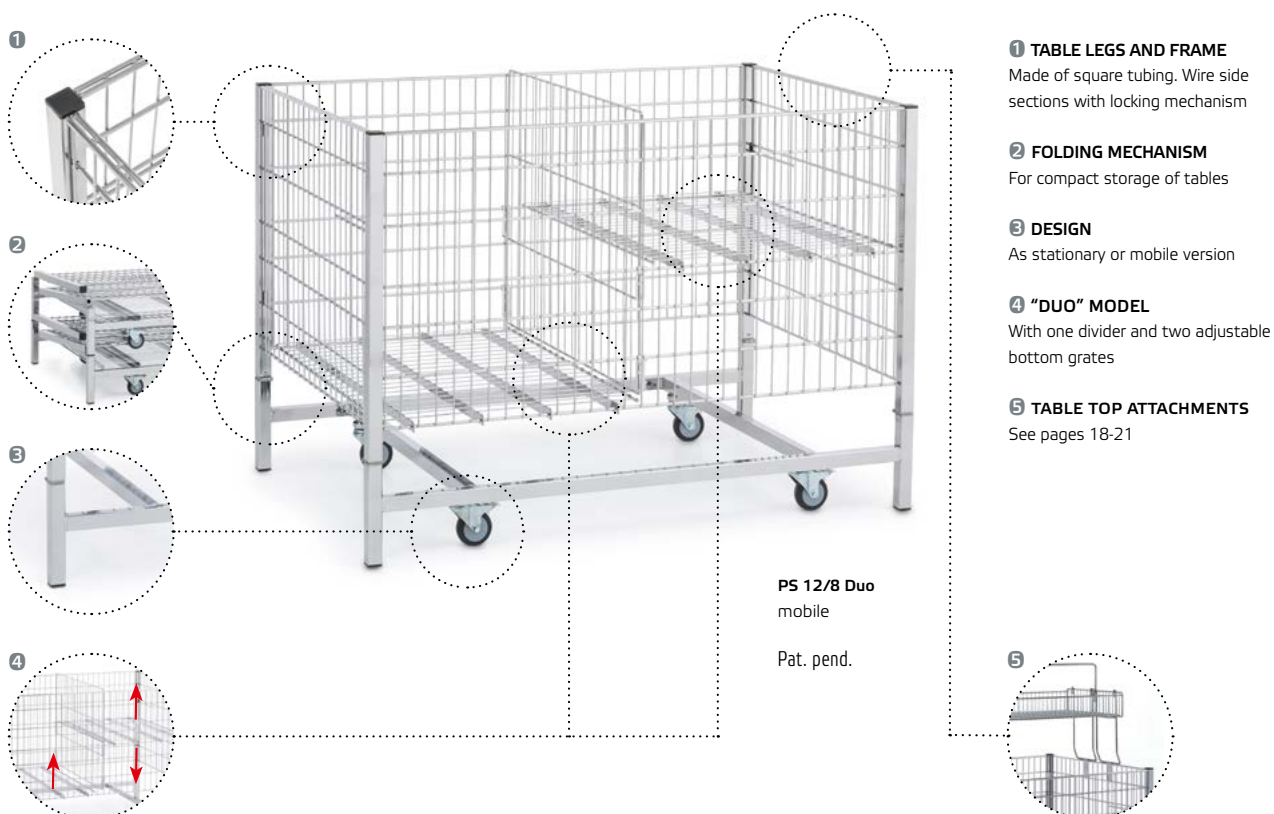

Stationary or mobile bargain tables can be stacked and transported on a low lift truck.

## 01.01 PS 12/8 bargain table

■ The effective “PS” will help you achieve your goal in record time – whether you need to react quickly at the point of sale or are looking for flexible displays of new products. This is because the “PS” bargain table can be assembled in next to no time without tools and takes up hardly any space when stacked in the warehouse.

## Creative and multifunctional

**YourTable T.01 is the ultimate all-rounder** for product presentation. The multitude of accessory elements creates the opportunity for the perfect presentation of your products in every sector. YourTable provides the appropriate look for your products and for your sales area with colours and finishes.

## Attractively arranged

**The YourTable T.02 presentation system is a master of the art of combination.** There are two sizes which can be perfectly arranged with the complete YourTable range or anywhere in your available space. With YourTable T.02, there is also a wide range of accessories to suit your requirements.

## 01.09 YourTable®

■ The multifunctional YourTable presentation system with three different models allows you to set the stage for every product range and to promote sales. All the components and accessories offer versatile usage and combination options. For you this means more design freedom in your product presentation – with minimal effort.

### 1 T.01

The ultimate all-round option.

### 2 T.02

Versatile combinations.

### 3 T.03

Attractive sales platform.

### 4 T.03

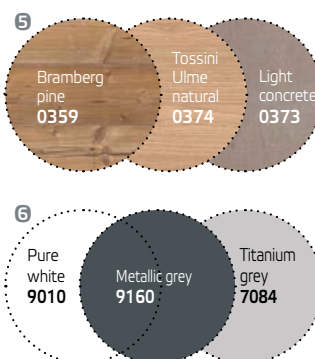

Individual displays.

### 5 WOOD FINISHES

For all YourTable models. Bramberg pine and water resistant 0375 available.

### 6 COLOURS

For table legs and frame made of square steel tubing, plastic powder-coated.

YOURTABLE

Other colours and finishes available on request.

### The platform...

YourTable T.03 provides your products with an attractive sales platform. You can choose whether you need one or two presentation surfaces. The choice of colour and wood finishes gives the furniture the desired special appearance.

### ...and the display

The trestle subconstruction of the T.03 as an individual display unit is the perfect addition to the YourTable T.03 with the matching accessories.

# 01.10 YourTable® Cool

## 02.01 BakeOff® 2.0 / 2.1

■ With the Wanzl BakeOff 2.0, your range of baked goods will take centre stage and make your customers hungry for more. The system is highly flexible to accommodate your spatial conditions and processes. The modular design enables a flexible response to changes in a range, with minimal assembly work.

### 1 COOLING MODULE

Cooling unit can be integrated into existing design.

### 2 BREAD MODULE

Bread of different shapes and sizes can be easily removed.

### 3 BREAD ROLL MODULE

Design without any internal moving parts. Minimal cleaning effort with maximum transparency.

### 4 PATISSERIE MODULE FOR SWEET BAKED GOODS

Pastry replenishment is optimised by a special coating.

### 5 CRUMB TRAY

Removable, central crumb tray for maximum cleanliness beneath the modules. Integrated bumper rail for damage protection.

### 6 7 8 9 SERVICE MODULES

Convenient drawer system for disposable gloves and waste box, bags, vacuum cleaner.

### 10 BREAD SLICING MACHINE

Separate tower with identical design for integration of bread slicing machine.

**Upgrade: BakeOff 2.1**  
Increased transparency at the sides thanks to glass panes instead of metal sheets on the baked goods shelf.

**BAKEOFF 2.1**  
Body wood finish Bardolino oak grey

### Easy handling

**Goods filling** is tailored to your available space and can be carried out from the front as well as the back. For daily cleaning, an easily accessible vacuum cleaner is integrated into the service module.

### Ideal for self-service

**Customers can pick up** goods effortlessly and with just one hand. The baked goods are pulled onto the removal shelf with a baked goods remover and then picked up using disposable gloves or bakery tongs.

## 02.02 BakeOff® 3.0

*Sell bakery products successfully*

- > High product presence, resulting in strong sales impact
- > Soft-close system for added comfort and hygiene
- > Can be retrofitted and combined with BakeOff 2.0/2.1

**BAKEOFF 3.0**  
the latest generation

### Simple and safe to use

**Tongs and disposable gloves** make sure that produce is removed in a hygienic manner. You can therefore rest assured that every item will end up safely in a paper bag.

### Appealing colours and finishes

## 02.02 BakeOff® 3.0

■ **With the latest generation of BakeOff 3.0**, we are making sure that your baked goods really are in the spotlight. Your produce is on clear display behind hygienic covers, generating maximum sales impact.

**Upgrade possible!**  
Convert your 2.0 / 2.1 BakeOff modules into the latest generation of BakeOff 3.0 units!

### 1 BAKED GOODS TOWER WITH COOLING

Service tower for presenting refrigerated goods on the top two levels. Beneath these, two levels for baked goods. Stainless steel refrigeration element. Constant cooling on both levels.

### 2 BAKED GOODS TOWER, BASIC MODULE

Sales tower for baked goods with open back panel for filling from the front and behind. With glass roof made from single-plate safety glass (ESG). Optional back panel with wooden finish.

### 3 BAKED GOODS LEVEL

Design without any internal moving parts. Minimal cleaning effort with maximum transparency.

### 4 CENTRAL CRUMB COLLECTION TRAY

Removable, central breadcrumb collection tray for cleanliness and hygiene underneath the modules.

### 5 SERVICE LEVEL

Service level perfectly suited to your needs. Choice of units:

### 6 7 8 9 SERVICE MODULES

Convenient drawer system for disposable gloves and waste box, bags, vacuum cleaner.

### 10 BREAD SLICING MACHINE

Separate tower with identical design for integration of bread slicing machine

### BAKEOFF 2.1

Body wood finish Bardolino oak grey

### Clean and hygienic

**Protection for your baked goods** is provided by silent hygienic covers.

### Easy to stock

**Items** are filled from either the front or the back, depending on your sales area or processes.

## 02.03 SideRack 2.0

### Certified safety

The electronic components, stability and hygienic aspects have been tested and certified by TÜV SÜD.

### DIN standards committee

#### Food hygiene

In order to keep up to date with the latest food hygiene standards, we are represented on the DIN standards committee "Bake-off stations in retail".

## 02.04 Vitable®

*Vitable® – see the freshness!*

› *Ingenious simplicity and flexibility*

› *Encourages purchasing*

› *Outstanding hygiene concept*

**VITABLE**  
open

**VITABLE**  
open, choice of tops

**VITABLE**  
with finish

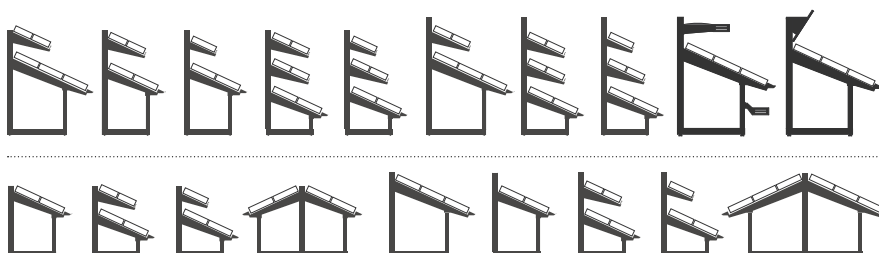

### Standard design

With its modular design, the new Vitable offers a variety of configuration options. All Vitable units consist of the same shelf brackets in different depths. The Vitable is available as a gondola or wall unit, with an open or closed body. In the closed version, the front section is an easy-to-open hygiene

flap. All variants feature crate stoppers, which prevent the top fruit and vegetable crates from slipping when the lower section is being filled.

### Flexible modular design

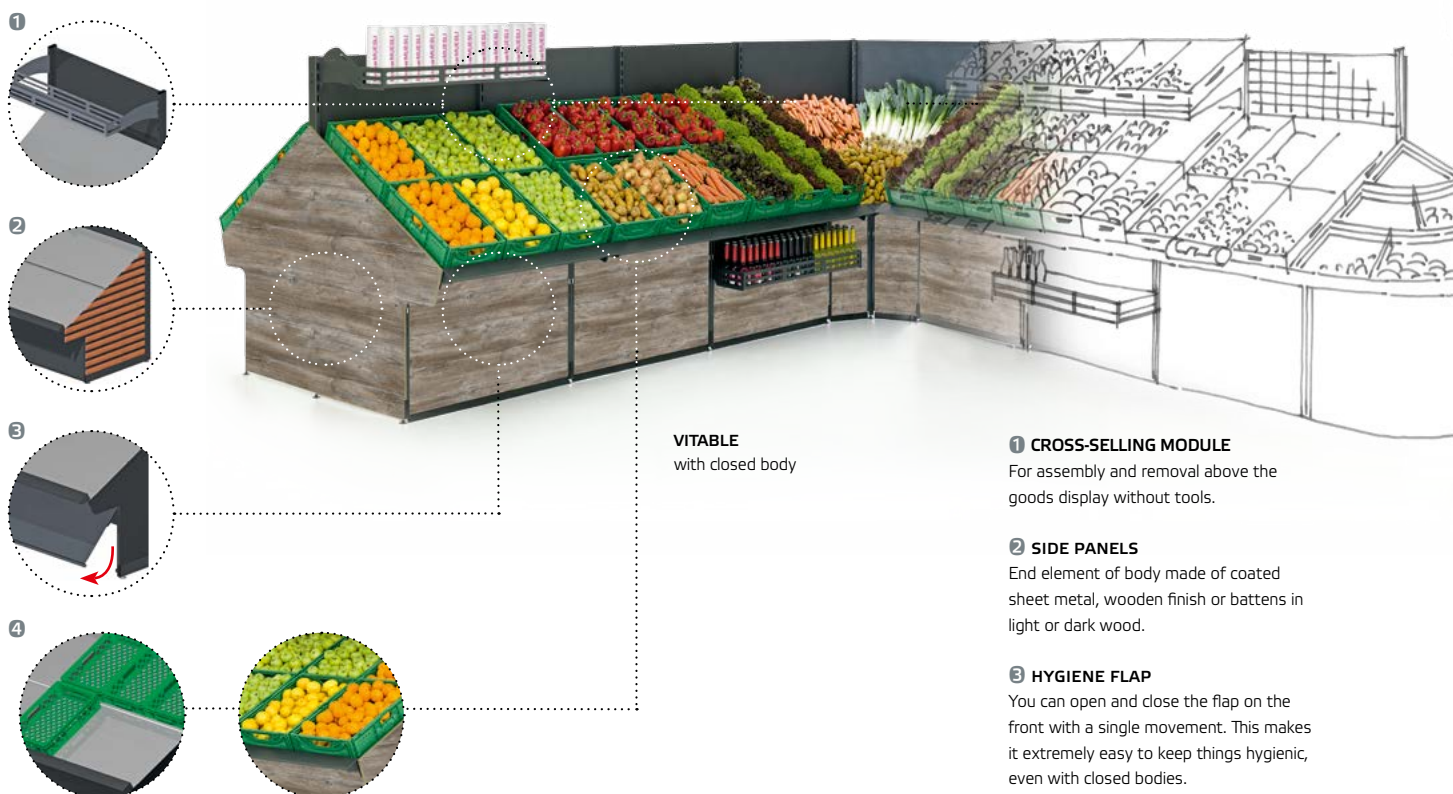

The basic Vitable elements are available in various depths and as a single, double or triple shelf system. Just what you need to make best use of your space.

## 02.04 Vitable®

■ **Whether in a city-centre store or in a large space, as a gondola or wall shelving:** the basic Vitable elements are available in various depths in bay widths of 1000 mm and 1250 mm and as a single, double or triple shelf system. Just what you need to make best use of your sales area.

Video clip  
Vitable

**VITABLE**  
with closed body

### 1 CROSS-SELLING MODULE

For assembly and removal above the goods display without tools.

### 2 SIDE PANELS

End element of body made of coated sheet metal, wooden finish or battens in light or dark wood.

### 3 HYGIENE FLAP

You can open and close the flap on the front with a single movement. This makes it extremely easy to keep things hygienic, even with closed bodies.

### 4 CRATE STOPPER

Protects your back and fingernails – the crate stopper ensures that crates do not slide down.

## Cleaner

**Vitable uses a unique and impressive** hygiene concept. Any places where fruit juice and debris could collect are easy for staff to reach. The hygiene flap means that this is also true even if the structure is closed.

## Texture

**Wanzl offers** a wide range of finishes to choose from for your new Vitable. Magnetic films with custom motifs are available for attaching to the hygiene flap and rear panel, with fast delivery and attractive terms.

## 02.05 Wooden pallet box

*Stylish display units for fruit and vegetables, dry-cured sausage, eggs and much more*

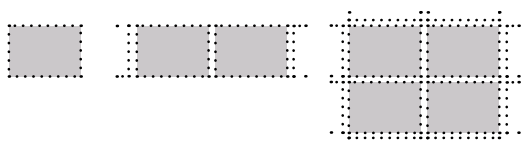

- › Weatherproof, suitable for Euro pallets measuring 1200 x 800 mm
- › Holds 4 standard fruit and vegetable crates measuring 600 x 400 mm
- › Lowlift transport also possible when loaded

PALLET BOX  
4x

PALLET BOX  
1x

### Standard design

Suitable for Euro pallets measuring 1200 x 800 mm. Edging made of planed spruce, incl. divider. Holds 4 fruit and vegetable crates measuring 600 x 400 mm. Birch multiplex film-coated base (water-repellent). Base height can be adjusted using crossbars or upside-down fruit and

vegetable crates.

**Surface finish:** Dip-glazed, similar to graphite grey 7024

**Accessories:** Bag dispenser with adapter. Further accessories such as plastic tray, poster frame and price rail available on request.

### Lowlift transport

**Transport** by lowlift truck is also possible when loaded with products.

## 03.02 STM stacking baskets

*The stacking basket series in XL format*

- › *Slanted or straight basket profile*
- › *Quality and design without compromise*
- › *Tried and tested millions of times*

**2 STM 23**  
with price rails

**2 STM 23**  
with price rails

### Standard design

Sturdy wire construction with 8 mm thick edging wire. Each wire crossover is spot-welded. Upright flat plates on the basket base, designed to take high stress.

**Surface finish:** High gloss, galvanised, chrome-plated  
Coloured plastic powder coated finish available on request.

### Adjustable, easy separation

**Dividers are easy to insert** and can be positioned variably.

### Wire stacking foot

**With upright flat plates** on the basket base, designed to take high stress.

## 03.02 STM stacking baskets

■ Available as variants with slanted or straight basket profiles. Quality and design without compromise. Tried and tested millions of times.

**2 STM 23**  
with price rails

**STM 23**  
with price rails

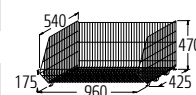

### Scanner price rails

Made of sturdy, transparent plastic with transparent cover for inserting scanner labels.

## 03.03 KMF stacking baskets

*A variety of baskets of equal width can be stacked in staggered arrangements*

- › *Extremely resilient and stable*
- › *Products are easy to see in the lower baskets*
- › *Fast and easy stacking*

**3 KMF** with mobile chassis, dividers and price rails

**3 KMF** with stationary chassis, dividers and price rails

### Adjustable, easy separation

**Easy-to-insert dividers,** variable positioning.

**Version:** Solid wire construction with 8 mm thick edging wire. Upright flat plates on the basket base, designed to take high stress.

**Surface finish:** High gloss, galvanised, chrome-plated. Coloured plastic powder coated finish available on request.

### Wire stacking foot

**Extremely resilient foot construction** with high stability.

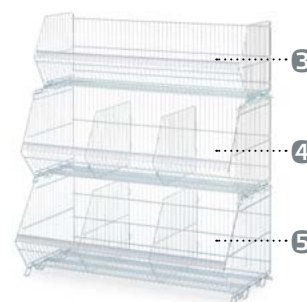

## 03.03 KMF stacking baskets

■ **Stacking basket series** with slanted basket profile and wire stacking feet. For attractively staggered stacking. Also carries the German “electroplating technology” seal, as all Wanzl stacking baskets do.

**2 KMF** with mobile chassis, dividers and price rails

**3 KMF** without chassis, with dividers and price rails

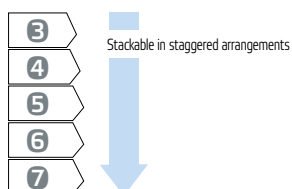

### Stackable with

**KMF shelf axis measurement 1000 mm**

Baskets with the same width can be stacked in staggered arrangements (see adjacent table).

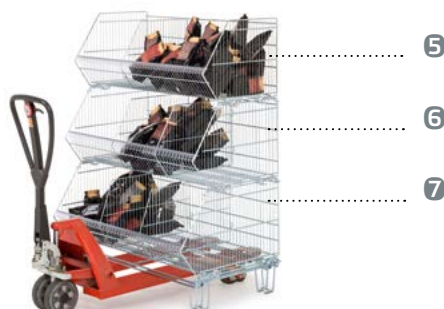

**KMF shelf axis measurement 1250 mm**

Stackable in staggered arrangements

**KMF** – with mobile chassis, dividers and price rails

**KMF** – mobile chassis with dividers

## 03.04 KKF stacking baskets

*Identical baskets can always be stacked together*

- › *Extremely resilient and stable*
- › *For clear product presentation*
- › *Simple and quick stacking with plastic feet*

2 KKF with mobile chassis, dividers and price rails

2 KKF stationary, with dividers and price rails

### Standard design

Sturdy wire construction with 8 mm thick edging wire. Each wire crossover is spot-welded. Upright flat plates on the basket base, designed to take high stress.

**Surface finish:** High gloss, galvanised, chrome-plated  
Coloured plastic powder coated finish available on request.

### Adjustable, easy separation

**Easy-to-insert dividers,** variable positioning.

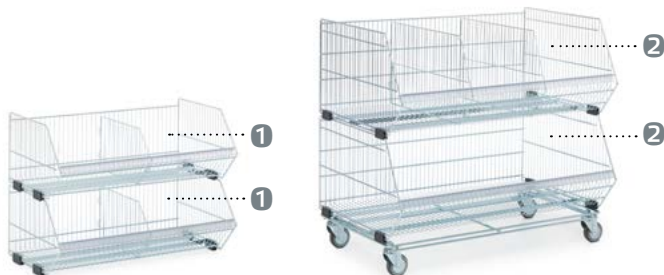

### Plastic stacking feet

**Snap in** and prevent damage.

## 03.04 KKF stacking baskets

■ The stacking basket series with slanted basket profile and plastic stacking feet is particularly gentle on shelf bases and can be stacked safely. Carries the German "electroplating technology" seal, as all Wanzl stacking baskets do.

KKF – 400 mm deep, with dividers

KKF – 640 mm deep  
with mobile chassis and  
dividers

### Stackable with

KKF shelf axis measurement 1250 mm

Stackable in staggered arrangements

Baskets of the same width can be stacked in staggered arrangements. Same baskets can always be stacked (see table).

### Scanner price rails

Made of sturdy, transparent plastic with transparent cover for inserting scanner labels.

## 03.05 Shelf insert baskets/shelf baskets

*For clear presentation of the product range*

- › *Staggered presentation of items with baskets of equal width*
- › *With nesting loops, up to 8 shelf insert baskets can be stacked on top of one another*
- › *Appealing presentation of all kinds of items*

**SHELF INSERT BASKETS**  
stacked and adjacent, with scanner price rail

**SHELF BASKET**  
Model AK 15

### Shelf insert baskets

**Design:** Sturdy wire construction with 25 mm wire interval. Nesting loops made of shatter-proof plastic.

**Surface finish:** High gloss chrome-plated. High-gloss galvanised and chrome-plated or coloured plastic powder-coated finish available on request.

### Shelf baskets

**Design:** Baskets made of robust steel wire. Mesh width at base 25 x 25 mm.

**Surface finish:** High-gloss chrome. Coloured plastic powder coated finish available on request.

### Scanner price rail

**Scanner price rail**  
integrated into the front of the basket.

### Shelf insert baskets with nesting loop

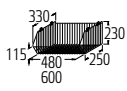

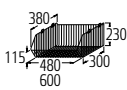

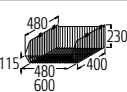

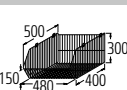

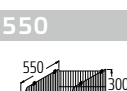

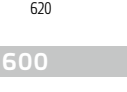

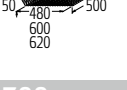

**With nesting loops,** up to 8 shelf insert baskets can be stacked on top of one another.

## 03.05 Shelf insert baskets/shelf baskets

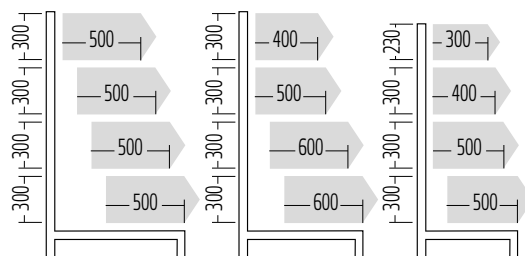

■ **Present cleanly, sell more** – both shelf insert baskets and shelf baskets bring more order and clarity to the store shelf.

## 03.06 Hang-in basket systems

*L series for normal loads, S series for heavy loads*

- › Endless variety of combination options
- › Complete freedom to arrange dividers – regardless of the shelf axis measurement
- › Optimal use of shelf space, no shelf surfaces required

**HANG-IN BASKET, L SERIES**  
for normal loads, image with  
scanner price rails, loading  
capacity max. 60 kg

**HANG-IN BASKET, S SERIES**  
for heavy loads,  
Load capacity max. 90 kg

### Standard design

Sturdy baskets, reinforced on base with upright flat plates. Brackets with triple hooks make attachment particularly easy, in horizontal position or inclined at 4.5° or 9°.

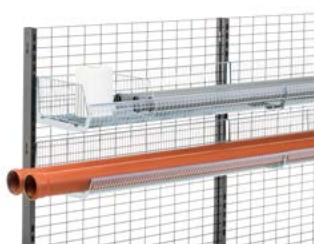

**L series** with 25 mm wire interval for normal loads.

**S series** with 18 mm wire interval for heavy loads.

**Surface finish:** High-gloss galvanised and chrome-plated.  
Coloured plastic powder coating on request.

### Endless and variable

**You have complete freedom** when it comes to arranging products on the shelf as the insertion of dividers is not determined by the shelf axis measurement. The system offers endless and variable combination options.

### Triple hooks

For tailored product presentation

### 4 basket depths

Enable staggered projection

### Divider

Divider intervals governed by the wire interval of series:

L series, 25 mm

S series, 18 mm

### The perfect view

The scanner price rail, closely fitted and protected against damage.

\* Offset baskets for heavy-duty shelves with supports available on request.

## 03.07 Hang-in baskets

*Display of products on shelves, even without shelf bases*

- › *Extremely resilient*
- › *Easy hanging and angling*
- › *Clearly displayed products*

**HANG-IN BASKETS**  
with scanner price rail

**HANG-IN BASKETS**

### Standard design

Robust, self-supporting design for high loads. Sturdy baskets with 8 mm edging wire. Bracket with double hook.

**Surface finish:** High gloss, galvanised, chrome-plated  
Coloured plastic powder coated finish available on request.

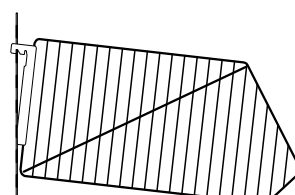

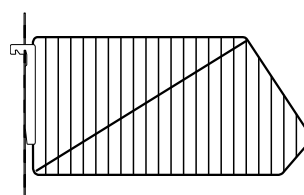

### Adjustable, easy separation

**Easy-to-insert dividers**, variable positioning.

### Tailored product presentation

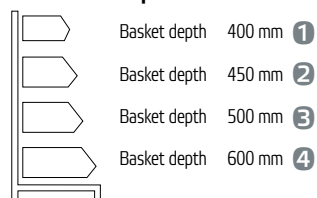

**Double hooks** for tailored product presentation: easy attachment at horizontal angle or inclined (6.5°).

## 03.07 Hang-in baskets

■ **Hang-in baskets with angled front** for displaying goods in shelving, even without shelf bases. The baskets can be easily attached and angled using 2-part brackets and can be subdivided with dividers at 25 mm intervals.

### 4 basket depths

---

## 04.02 Pallet bars

02 PALLET BAR TYPE 1

PALLET BAR TYPE 2

---

## 04 Pallet systems

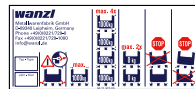

# 04.01 PA-X pallet boxes

Versatile use with standard Euro pallets measuring 1200 x 800 mm

- > Robust construction
- > Can be stacked with Euro pallets or configured with mobile chassis
- > Can be folded flat to save space

**PA-X1/S**  
Closing grate foldable on the long side, delivery without wooden pallet

**SAFE HANDLING**  
Clear information on load capacity and stacking shown directly on the box

All models can be folded to save space.

## Standard design

**PA-X/S series:** Sturdy pallet boxes in folding or closed design. Secure thanks to stacking corners with large support surface. 2 retaining bars each on the short sides. Mesh size 70 x 70 mm. Also available in non-stacking version.

**PA-X1/N:** As PA-X1/S, but without stacking corners and retaining bar.

**Castor wheels:** Swivel castors diameter 100 mm, incl. 2 with brakes.

**Surface finish:** High gloss, galvanised, chrome-plated.

## Reliable fixture

**Four latching bars** on the narrow sides ensure secure fixing on the Euro pallet.

## Safe stacking

**Stacking corners** with wide support surface and high edges prevent the box from slipping.

## Divider (optional)

**Fits all models** with a closed long side.  
Dimensions 715 x 725 mm.  
Mesh size 73 x 70 mm.

## Intermediate grate (optional)

**Fits all models.** For variable attachment in 70 mm grid.  
High load capacity. Mesh size 25 x 125 mm.

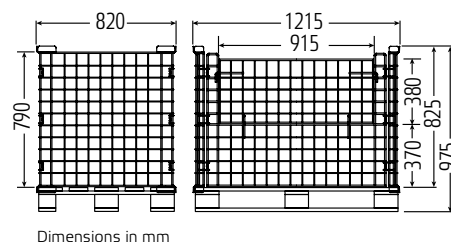

## 04.01 PA-X pallet boxes

■ The PA-X series is suitable for a variety of uses and is highly flexible: it can be closed on all four sides or folded in any direction – anything is possible.

### Basket attachment

Fits stackable models with two closed narrow sides. With scanner price rail. On request.

## 04.02 Pallet bars

*Highly robust and easy to use*

- > For large-volume goods and high quantities
- > Ideal for promotions, e.g. in end cap position at the ends of shelving
- > Unobstructed access and simple removal

### Standard design

Round tubing frame with two sturdy central bars. Frame and support bracket are welded. Locking bar is angled on the upper tie bar. Retaining profiles for variable assembly on long or short side of the Euro pallet.

**Surface finish:** Plastic powder coated or hot galvanised.

### Arrangement options

Pallet bars, individual

Pallet bars in a row, lengthways

Pallet bars in a row, sideways

## 04.02 Pallet bars

■ **Large-volume goods and high quantities** can be transported safely from the production location to the sales area. Ideal for promotions in end cap position at the ends of shelving. Unobstructed access and simple removal of goods are steady factors in success.

### Easy handling

The bars are easy to fit. The retaining bars grip underneath the central bar of the pallet.

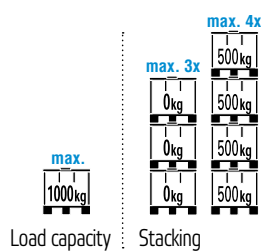

### Safe stacking

The pallet blocks latch securely into the angled locking bars.

### Maximum load capacity / stacking

## 05.03 Box container

*Lightweight design in two sizes, suitable for large volumes of waste*

- › *Sturdy tube frame*
- › *Folding front grate*
- › *Can be folded flat to save space*

**BOX CONTAINER**  
with length of 1200 mm

**BOX CONTAINER**  
with length of 1620 mm

### *Standard design*

**Length 1200 mm:** Sturdy tube frame with wire grate paneling. Front grate can be folded once.

**Length 1620 mm:** Sturdy tube frame with wire grate paneling. Front grate can be folded twice.

**Castor wheels:** 4 swivel castors, including 2 with brakes. Rubber tread.

**Surface finish:** High gloss, galvanised, chrome-plated.

### *Can be folded flat to save space*

The container is easy to fold with just a few steps and, therefore, saves space during storage.

### *Folding front grate*

Depending on the container size, the front grate can be folded once or twice and enables easy loading and convenient access to the contents.

## 05.03 Box container

■ For collection, provision or disposal of boxes, crates and large volume packing materials.

### 1 DESIGN

Sturdy tube frame with wire grate panelling.

### 2 FOLDING

For easy loading.

### 3 CASTOR WHEELS

4 swivel castors, including 2 with brakes. Rubber tread.

### 2 FOLDS FLAT

Can be folded flat with just a few steps, for space saving storage.

# Customised solutions

A custom approach – from development to roll-out

LEADING EXPERTISE FROM WANZL

CONCEPT PLANNING

AUGMENTED REALITY

## *Product development*

■ **At Wanzl, product development** starts with you, your aims and your ideas. We work with you to find the right balance between aesthetics, function and cost-effectiveness. Wanzl can rely on creative designers, experienced technicians and engineers. The effectiveness and versatility of the in-house production facilities gives you a broad range of potential solutions that you will rarely find elsewhere on the market.

## *Transparency and cost control*

■ **The development processes at Wanzl follow a proven principle.** This means that project aims, milestones and success are checked at defined intervals and discussed with you, keeping you up to date at all times.

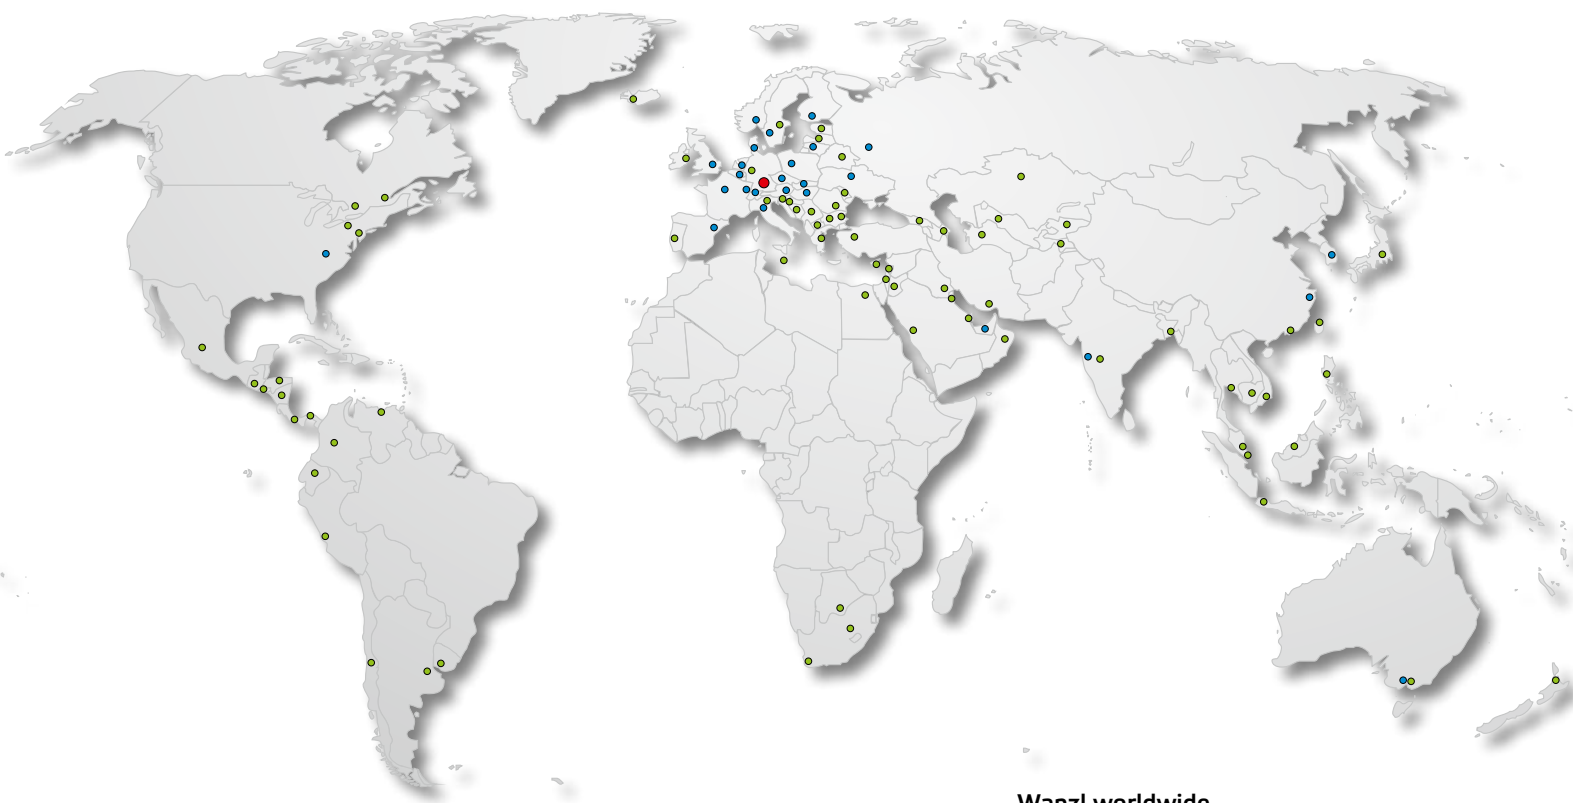

## *Expertise means reliability*

■ **Wanzl not only has its own product development teams** with engineers and design specialists for wood and plastic technology and metal construction, but also its own design engineers and tool-makers for making moulds, jigs and tools. Your custom products and solutions are therefore produced in a workflow with well-established interfaces. Your personal contact will oversee the process and ensure that things run smoothly.

## *We speak your language*

■ **For you, the bottom line is:** the great feeling of being able to rely on the fact that everything is going to plan. Whatever language you speak, we have the right contact for you – for design, emotion or sales psychology, for engineering, function and ergonomics, for product safety, quality and cost-effectiveness. This minimises the chances of something going wrong and means that you can plan your success.
