

# FlexTable

Simply encourage more impulse buying

# FlexTable

■ FlexTable – the new generation of sales tables beautifully presents food and non-food items, resulting in more impulse buys. Practical features enhance staff productivity in-store and support ergonomic working. The FlexTable is available in attractive mixed-material combinations. There is design scope for individual requests provided by way of the wide-ranging colour palette and diverse finishes.

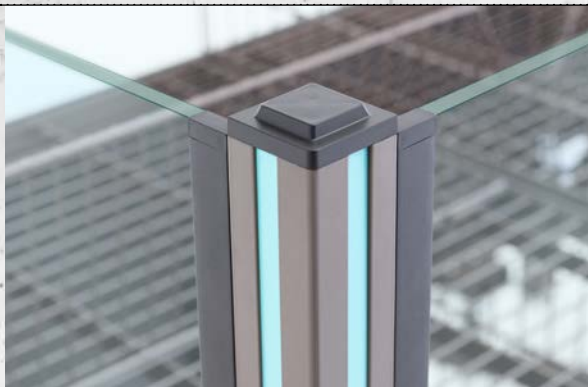

*FlexTable Basic*

*FlexTable Premium*

***The profile base:  
the core element***

■ The profile base connects the side panels and shelves. There is also the option of individual colours with accent stripes.

***FlexTable Advanced***

with attachment**

**FlexTable Premium  
with attachment**

## ■ More design scope

Quality finishes and exciting material mixes – FlexTable integrates well into sales areas. **Diverse colour variants and finishes** provide additional scope for customisation.

## ■ Variable product range use

Whether a one- or two-part bottom tray, all FlexTable variants are very flexible in use, offer a high degree of load capacity, and ensure your food and non-food ranges are tidily presented.

## ■ Stationary or mobile designs

The FlexTable is available either as a stationary unit, or mobile with brakes. All variants are suitable for pallet truck transport.

## ■ Space-saving storage

**The FlexTable can be nested for space-saving storage.**

Practical nesting stoppers ensure the tables stand securely and prevent them falling down.

*FlexTable Advanced  
with attachment*

*FlexTable Basic  
nested*

#### ■ Easy-to-read pricing

The pricing strips – available as an optional extra – are harmoniously integrated, and their sloping angle makes them easy to read, giving customers clarity.

#### ■ A practical tidiness tool

The table connectors, available on request, hold the sales tables in a row and prevent them being moved unintentionally.

#### ■ Loading made easy

The flush/fold-up front element (optional) makes loading the sales table easier. This makes processes more ergonomic for store staff, taking the strain off them.

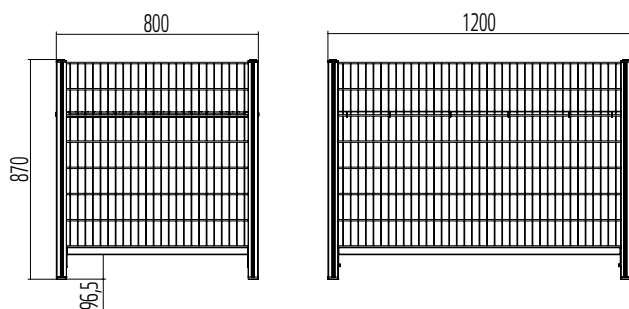

#### ■ Even more storage space

The basket attachments designed specifically for the FlexTable are ideal for cross-selling and expand the sales area capacity.
