

01.07 Entertainment sorting trolley

For order picking books and media

- > Variable compartment size for multi-order picking
- > Two locking swivel castors function as a manoeuvring aid
- > Ergonomic handle

Ergonomic push bar handle

The push bar handle has been designed so that it offers different gripping heights depending on the size of the employee. Both sides of the bar are inclined toward the centre, preventing risk of injuries from knuckles protruding from the sides.

Heel protectors

The wire grate in front of the castors beneath the handle protects the feet when pulling the trolley.

Supplied without decoration.

Adjustable dividers

The sheet metal dividers can be adjusted or stacked on top of each other depending on the order volume. They can also be variably distributed across the shelves. A guide bar keeps the compartment dividers from falling out.

More directional stability

Simply press the foot-operated rail down and the directional lock transforms the two swivel castors into fixed castors by locking them. This ensures more directional stability while manoeuvring.

Standard equipment: base frame made of square tube, side panels with wire grate. Mountable sheet metal shelves with 19 adjustable dividers.

Safety grate acts as heel protectors while pulling.

Ergonomic push bar handle. Anti-static strap.

The screwed-in top shelf with mesh can be omitted if the rear panel grate is used.

Castors: 4 swivel castors, including 2 that can be locked to function as fixed castors. Rubber tread.

Surface finish: base frame is high-gloss galvanised and chrome-plated. Shelves and dividers are made of galvanised sheet metal. Push bar handle, heel protectors and bar for setting the direction are coated in plastic powder in RAL 5015 Sky Blue.
